

The image features a background of a Union Jack flag with a weathered, textured appearance. The red, white, and blue colors are slightly muted and show signs of wear. In the center of the flag, the words "Professional English" are written in a clean, white, sans-serif font.

Professional English

What is Professional English?

Professional English isn't so simple. We seemingly know the language, but it turns out that professional jargon is something new for us.

Vocational English teaches vocabulary typically related to the profession.

They aren't usually used in everyday speech.

What is professional English useful for?

If we are learning a profession for example in a technical school, vocabulary related to the profession can be useful.

Knowledge of English at the business level allows you to work in the international market, in companies working with foreign clients or in the institutions of the European Union.

Professional English could help to communicate in English at work, in situations such as:

- **phone calls**
- **writing emails**
- **attending and giving in meetings**
- **presentations**
- **conferences**
- **negotiations**

You will be able to write your CV in English and have a job interview - knowing technical English helps you get a more interesting and better paying job.

Fields in which we use professional language:

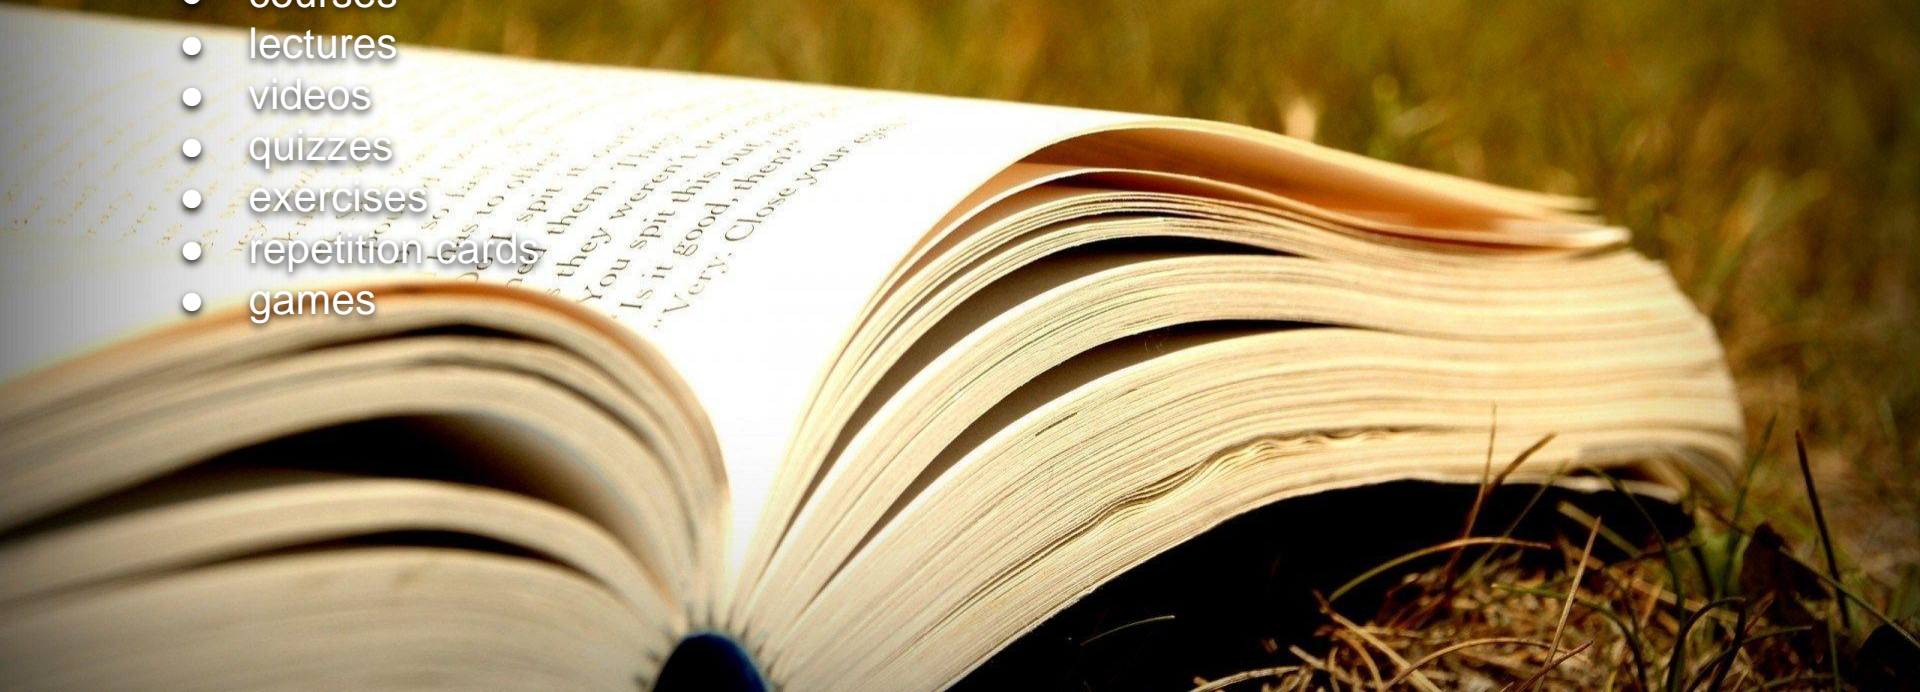

- Information Technology
- Mechanical engineering
- Electronics
- Physics
- Mathematics
- Chemistry
- Logistics
- Astronomy ETC.

How to learn a professional language?

You can learn vocational english from:

- books
- courses
- lectures
- videos
- quizzes
- exercises
- repetition cards
- games

Quiz
